

garden

ROTO is a global producer of high-quality plastic products from polyethylene, polypropylene, polyamide, XPE and ABS with production factories in four European countries. ROTO has been a family run company for more than 42 years, and is a successful and reliable manufacturer.

ROTO is a leading rotational moulder within Europe and has over 4000 products to its portfolio. Within the range, Roto produce large water tanks up to 70.000L. These products are exported into more than 50 countries all over the world.

ROTO performs all stages of the business process, from product development, product analysing, tool production, prototype manufacturing, serial production, marketing & sales, distribution and after-sales service. High quality technical products are a result of the latest production technologies and a strong R&D department.

PLANTERS

Excellent imitation of natural materials like wood. Traditional design adds a charming touch to any patio or deck. Available in oak/ wood effect.

The variety of shapes and sizes make these perfect planters for any kind of setting, both indoors and outdoors.

Large range of products.

A variety of finishes and looks, including shiny, matt, stone, terracotta and metal. Characterized by an internal removable pot for an easier planting.

Stackable and therefore easy to transport and store.

- ROTO planters are made of high-grade polyethylene by means of rotational molding.
- Planters have a look of wood, but without the.
- Traditional design adds a charming touch to any patio or deck.
- Available in oak, cherry and pine wood effects.
- The variety of shapes and sizes make these a perfect item for any kind of setting, both indoors and outdoors.
- Lightweight and sturdy plastic materials, supplied in a variety of colours.
- Long-lasting beauty, durability and quality.
- Made in the EU.

RAIN BARRELS

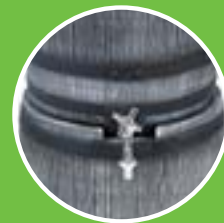

Gutter filter

Planter insert

Additional equipment

Metal tap

Stackable

Water stored in a rain barrel can be used to water your planters and garden. Instead of paying for water from the tap, you can use the water you collected to keep your landscape healthy and save you money. Rainwater is free of charge and because you are using rain water, it will help reduce your water bill. The quality of rainwater is unsurpassed when it comes to watering your plants or landscape. Captured rainwater is free of the salts and pollutants associated with ground and surface water. The natural temperature of rainwater will not shock plants the way cold tap water can. Best of all, rainwater contains no chlorine; a chemical added to drinking water that inhibits plants growth. The components of rain barrels include an intake, spigot,

and overflow. The intake is the entry point for the rainwater and should be screened or filtered to prevent organic debris (leaves, trash, and dirt) from contaminating and clogging the stored rainwater. When the barrel reaches maximum capacity, the overflow provides an outlet for the excess rainwater. The spigot, which is typically located near the bottom of the barrel, is the main outlet for transferring the stored water for irrigation.

WHEELBARROWS

The Roto TNTs are one- or two-wheeled wheelbarrows which come unassembled. They are suitable to send by post and are easy to assemble.

Wheelbarrows are available with a painted or galvanized frame. The trays are made of polyethylene.

Advantages of Polyethylene trays:

- lightweight,
- shock resistant,
- simple to clean,
- durable (wall thickness is 3-6 mm),
- stabilized against UV rays and frost,
- 100% recyclable after use.

FURNITURE

Cushion for seat

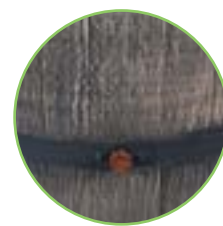

Glass table top

Cushion for seat

Foot rest

Plug to fill with sand or water

ADVANTAGES:

- long life,
- weather resistant,
- easy to clean and low maintenance,
- lightweight,
- UV resistant,
- protection from decay and frost.

USE:

- indoor and outdoor use,
- summer or winter,
- gastro, private use and catering.

Outdoor plastic furniture has been designed in a rattan and water barrel style, making it just as attractive as traditional outdoor furniture while being stronger, easier to clean and waterproof. ROTO outdoor furniture is available either as an outdoor plastic patio furniture set, or as individual plastic chairs and tables to suit the needs of every customer.

Extreme durability.

Shock restraint polyethylene, non toxic and recyclable.

Lightweight and sturdy material, UV resistant, frost proof and long lasting.

Direct shipments to customer or clients. Low lead-times and warehouse storage.

More than 40 years experience of rotomoulding.

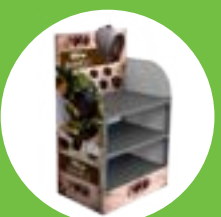

ONLINE & SHOPS

Easy to deliver for online stores and web shops.

Custom labelling including barcoding.

Custom display design.
